

FOR IMMEDIATE RELEASE

More beer in time for Summer!!!!

Halifax, NS – May 22nd 2009 - In preparation for another big year, Garrison Brewery Co. has expanded its overall capacity by 50% with the purchase of 2 new tanks. These tanks (as with all Garrison brewing vessels) were made right here in the Maritimes, helping to separate us from the "Made in China" trend that seems to prevail these days. The new 15' storage tank & 21' fermenter, designed and fabricated in PEI by the "other" stainless steel company, Diversified Metals Engineering, brings Garrison's capacity to over 500,000li or 1.5 million bottles!!!! Everything from the brew house that wasn't bolted down was removed so that the new tanks could be pushed, pulled and hoisted into place. The timing is particularly important as the brewery is set to release their new summer brand, *Hopyard Pale* and brace for the arrival of the Tall Ships mid-July. Bring on the summer!

About Garrison

Garrison Brewing Company is an award-winning independent Halifax microbrewery, producing distinctive, unpasteurized, all-natural ales in small batches. Now in it's 12th year, Garrison distributes widely throughout the Maritimes and has doubled sales since moving to the Halifax Seaport three years ago.
